Summary of Qualifications

Dynamic and creative team leader with over 4 years of experience in managing diverse technical challenges domestically and overseas, communication with a diverse demographic of people, and building highly motivated teams dedicated to achieving goals in stressful environments. I have a strong passion for software development and I enjoy learning about the newest technologies available. I am highly motivated individual that is very excited to employ all of the skills that I have acquired over the years in the workplace and beyond.

Experience

September 20th, 2019 – Present

Business Systems Analyst, Coastal Women's Shelter

- Held a volunteer position as a business systems analyst to help implement new technology to improve the overall operations and get aid to more victims of domestic violence.
- Implemented various software solutions to centralize project management, communication, and donation software.
- Automating time consuming business processes with Microsoft Flow and PowerShell in order to free up time for more important matters.
- Troubleshoot and solve all IT related issues in the workplace.

January 9th, 2019 – May 16th, 2019

Student, Microsoft Software & Systems Academy

- 19-week, hands-on, IT technical training program created by Microsoft and administered via college accredited courses with the goal of preparing transitioning service members for technical opportunities outside of the military.
- Developed the fundamentals of programming logic, development, troubleshooting and design by creating over a dozen applications that follow object oriented design principles.
- Detailed advanced techniques of C# programming within Microsoft Visual Studio 2017 and explained advanced SQL database management techniques within MS SQL Server 2016 and SQLite 3.
- Developed my own website from the ground up using HTML5, CSS3, Bootstrap 4 and JavaScript to ensure that the design, functionality, and user experience was the best it could possibly be.

June 14th, 2015 – May 20th, 2019

Rifleman, United States Marine Corps

- Arranged a training program to effectively ensure that every single coworker of mine was proficient and confident with data collection, conflict management, and problem solving in high stress environments while deployed in various foreign countries.
- Arranged a healthy working relationship with partners in foreign countries so that we could collaborate and improve both of our organization's strategy and proficiency.
- Organized, retrieved, maintained, and reviewed hundreds of company records and military hardware worth over 1 million dollars including personnel issue records, weapons systems and optics.
